

THE SOUTHERN ELECTIONS.

On Tuesday last the elections from the South were still too far from being completed, to enable us to determine with accuracy the result, or even to decide how many, or even two-thirds of the Southern States have gone. It is known, however, to every one, that the elections in North, Ninth, and Eleventh are to be elected—leaving the other three, the most doubtful, to be decided, generally in Georgia and at many points in Alabama, as has been the case in the past, and it is to be expected to be as doubtful as in the Eleventh.

On the first day of the election,

the people of the South, who

had been so long in the

dark, were to be

left to their fate.

Florida chose her Electors on Tues-

day last, to meet her State Legisla-

ture on the 10th.

On the 10th, we have

undoubtedly carried Ten-

nessee, and North and South Caro-

olina, in the last election.

It is believed now, that the

State by a majority is not

less than 50,000.

In North Carolina the

legal election has been

delayed to prevent the re-

turn of the negroes, and

we have no accurate

knowledge of the result.

olina, in the last election.

For weeks past the whole policy

of the South, has been to

eliminate the white Unionists,

and to isolate the negroes.

As far as we have been

able to learn, the negroes

have been excluded from

the ballot-boxes in every

part of the State. The result was

as follows:—
